IMPACT (as of June, 2019)

<https://www.ncbi.nlm.nih.gov/myncbi/denise.hien.1/bibliography/public/>

The ISI web of science citation report: 2226 citations, average 29 per article, h-index=24; googlescholar report: 4402 citations, h-index=33; researchgate report: 3001 citations, h-index=26. Number of citations exceeds 500 for a review I co-authored in *Drug and Alcohol Dependence* in 2007. Other journals where I published are also of high impact (e.g., *American Journal of Psychiatry*, *Journal of Consulting and Clinical Psychology*, *Psychotherapy and Psychosomatics*). Impact (including on the general public, but also in the criminal justice system) is also evident as further described below (invited talks, consulting activities).
